Project: West Fork School District – Immediate Repair Program
Re: Letter of Recommendation

I am writing to express my gratitude for Dunk Fire and Security's excellent and professional job performance for the West Fork School District – Immediate Repair Program project.

Dunk Fire and Security's assistance was crucial in the design of an affordable, yet quality, fire alarm, security and intercom system for all three schools. David McClure's (and the team from Dunk) dedication to this project from the beginning was an indication that the project would be successful in the end.

We are now in the process of closing this project, and Dunk Fire and Security's performance and quality of work is by far the high point of the project: to Flintco, Inc., as well as the West Fork School District.

Thank you again for your dedication and professionalism throughout the West Fork School District – Immediate Repair Program project. I would be proud to recommend Dunk Fire and Security to anyone for all of their fire and security needs.

Sincerely,

A handwritten signature in black ink, appearing to read "Trish Gardner", written in a cursive style.

Trish Gardner
Project Manager
Flintco, Inc.
