Ken,

I wanted to write a note to express appreciation for your consistent performance and attitude. We were in a real bind when I called needing the fire hydrant installed and functional in an impossibly short amount of time. It appeared that being able to open the New NWACC Parking Structure on time was not going to happen. I can't think of another individual, or firm that could have put together the pieces effectively enough to pull this off, but you did, and we made it! Thank YOU!

Throughout the past 16 years, it has been a great privilege to work with you. The "can do" attitude is rare anymore, and I look forward to many years ahead.

Thanks again for being a bright, shining light in our industry!

Sincerely,

Steve L. Marshall
