Robert Beeler
Associate Director of Design and Construction
University of Arkansas Facility Management - PHPL 139
Fayetteville, AR 72701

Dear Bob,

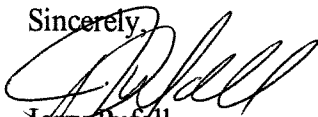

This letter is written upon the request of Rick Reynolds in reference to our satisfaction with Dunk Fire & Security support and installation services at our athletic department facilities. Dunk Fire & Security is currently providing 24-7 emergency response services for all athletic department facilities. This service includes first response to all fire alarm notifications, including evaluation of the alarm, analysis of problem, and repair services if necessary. In addition, Dunk Fire & Security performs the annual inspection of fire alarm systems, sprinkler systems, back flows, and fire pumps for all our athletic department facilities.

Prior to the establishment of Dunk Fire & Security, the same group of individuals were directly responsible for the installation of our fire alarm systems at Donald W. Reynolds Razorback Stadium, Bud Walton Arena, and the Broyles Athletic Center during their employment with Simplex Grinnell.

Rick has personally worked with the athletic department in reviewing the alarm systems within all of our facilities and has made recommendations that we have implemented to enhanced the fire safety protection of our facilities. Rick, and the employees who work for him, have always performed with the highest level of professionalism. Their attention to detail, knowledge of the industry, and the appreciation of the requirements we face to make sure projects fall in line with construction and operating budgets is commendable.

Any consideration you give to Dunk Fire & Security for future projects on campus will be greatly appreciated. Given the opportunity, you will find a level of commitment that parallels the high standards set by your department. Please contact me at 575-4094 if you have any questions, or need additional information. Thank you for your time and attention.

Sincerely,

Jerry Pufall
Associate Athletic Director
